

Only Love (Demo)

Who can stop the world
From all its spinning
Come to the end
Without a beginning

Who can read your mind
When you sleep
Steal away the heart
You want to keep

Who can see the light
In the dark
And light a fire
Without a spark

Only love
Only love
Only love

Who can say it all
Without words
Hear the morning chorus
Without birds

Who makes lightning strike
Without a storm
And wants you back
Before you're gone

Tell me who can fly
Without wings
And sail away
Without a wind

Only love
Only love
Only love

Big Red Sun (Demo)

Time won't leave me alone
His dancing feet
Stepping on my own

Like a glass of wine
Going to my head
Just a little bit hazy
Unsteady on my legs

Time, my bully boy
He's working on his plans
That old killjoy

But I will run away to Africa
With her desert skies
And her big red sun

In the blink of an eye
He's got doves up his sleeve
He's always waving
But he never leaves

Time, my bully boy
He's working on his plans
That old killjoy

But I will run away to Africa
With her desert skies
And her big red sun
And her big red sun

Stormy Sunday (Demo)

I've been looking out the window
Getting lost in a daydream
Looking at the morning sunshine
On the wall
The weathermen are telling me
It won't be long till it's raining
I think I'm going to stay at home
And do nothing at all

It's going to be
It's going to be
A stormy Sunday

I've been looking out the window
The blue sky is going grey
Now the wind's getting up
It's starting to blow
I think I'm going to pick up the papers
And see what they say
Now I can hear the lightning
On the radio

It's going to be
It's going to be
A stormy Sunday

I've been looking out the window
The trees are starting to sway
I tried to give you a call
But I couldn't get through
The sky's turning black
And it's coming this way
Like the weathermen said
It's all coming true

It's going to be
Oh it's going to be
A stormy Sunday

Where The Water Meets The Land (Demo)

I used to have all the time in the world
An endless rising sun
I could dream on the riverbank
It had everywhere to run
Time was a temple
In some faraway magical land
A book with no chapters
In the palm of my hand

I used to have all the time in the world
I never knew where to begin
I could stand on a mountain top
And throw it all to the wind
Time was a colour
Sky blue
A tide rolling in
Rolling in with the moon

Now I can see it all so clearly
I can see where the river ran
And I can hear the waves crashing
Where the water meets the land
Where the water meets the land

I used to have all the time in the world
I gave it away for free
Now I keep an eye on it
I keep it under lock and key
Time was a temple in some faraway magical
land
Now it's a castle
A castle made of sand

Now I can see it all so clearly
I can see where the river ran
And I can hear the waves crashing
Where the water meets the land
Where the water meets the land

Not On The Radar (Demo)

Somebody's talking in my ear
But I don't hear a thing
Someone's trying to call me up
But I don't hear the phone ring
They're all trying to track me down
But I'm not on the radar
I'm going faster than the speed of sound
I'm heading for the stars

Somebody's trying to catch my eye
But I'm up and gone
Someone's trying to reel me in
But I'm rolling on
They'll never get me in their lights
Oh I'm out too far
And it won't be long until I'm out of sight
I'm heading for the stars

And they shine so bright
And they shine all night
They shine all night

Somebody's waving flags at me
Trying to get me to stop
But I'm only halfway around the track
I'm almost at the top
Someone's blowing me kisses
They want to ride in my car
But I like riding on my own
When I'm heading for the stars

And they shine so bright
And they shine all night
They shine all night

Daybreak (Demo)

Daybreak
Take this night's heartache
I can't stand it any more
Oh it drives me crazy
Come quickly, quickly
Bring the morning sun to my door
Oh I can't take night's heartaches
Any more

I close my eyes
I try to dream
But I know I'm in too deep
I'm too far down the stream
I lie awake
Light a cigarette
Oh I know it's far too late
It's too late for regrets

Daybreak
Take this night's heartache
I can't stand it any more
Oh it drives me crazy
Come quickly, quickly
Bring the morning sun to my door
'Cause I can't take night's heartaches
Any more

And if I said
I would do it all again
Even if you stole the sun
Only left me cloud and rain
Rain for the rainbows
And clouds for the storms
Oh come and take the moon away
Bring me the dawn

Daybreak
Take this night's heartache
Oh I can't stand it any more
Oh it drives me crazy
Come quickly, quickly
Shine the morning sun through my door
'Cause I can't take night's heartache
Any more

Come quickly, quickly
Shine the morning sun through my door
'Cause I can't take night's heartaches
Any more

Where Would I Be (Demo)

Where would I be without you
I'd be flat on my face
I wouldn't know which way was up
I'd be lost in space

And what would I see without you
I would surely go blind
I wouldn't see the sun go down
I wouldn't see it rise

Where would I be
Where would I be

And what would I hear without you
Just a ringing in my ears
I wouldn't hear your footsteps
Come running
I wouldn't hear your tears

And where would I go
I would run away to sea
And sail the seven oceans
But I'd never be free

Where would I be
Where would I be

Jamais À L'Heure (Demo)

I've been waiting
For over an hour
I lit the candles
Rearranged the flowers
And I've been listening
For her keys in the door
And I love her
I love her more and more
More and more

Elle n'est jamais à l'heure
Elle n'est jamais à l'heure

I look out the window
Pour a glass of wine
And put on a record
An old one of mine
And I love her
Like yesterday
And this feeling
It won't go away
It won't go away

Elle n'est jamais à l'heure
Elle n'est jamais à l'heure

Jamais
Jamais

Rainbow Days (Demo)

The swallows are still here
Gliding in the sun
They're weighing up the sky
For the home run

It's coming around again
It's coming around again
It's coming around again
It's coming around

Rainbow days
April showers
Bumblebees are bumbling
From flower to flower

It's coming around again
It's coming around again
It's coming around again
It's coming around

Foxes cry
In the dead of the night
Calling out to lovers
In the moonlight

It's coming around again
It's coming around again
It's coming around again
It's coming around

If I Could (Demo)

If I could have it all again
Would I fix that weathervane
For blue skies
For only blue skies
It wouldn't be the same

Oh I know I'd miss the storms
All the thunder and the lightning
And all the riddles of the sky
No rain clouds rolling by
It wouldn't be the same

If I had it all again
If I had it all again

Parallel Moon (Demo)

Here we go again
Strangers in a foreign field
Far away from home
Hoping our hearts will heal
Oh goodbyes
They always come too soon
When you're running in the light
Of the parallel moon

Now we are sailors
Clinging to the side of the boat
Swimming in the waves
Just trying to keep afloat
And the prisoner is pacing
Pacing out his room
And he's counting all the angles
Of the parallel moon

Now it's here
And then it's gone
Like dazzle ships at dawn

Here we are again
Listening to the falling cries
We're blowing up clouds
And making holes in the sky
Oh we'll go diving
Down into the deepest blue
Until we find the night
Of the parallel moon
Until we find the night
Of the parallel moon

Now it's here
And then it's gone
Like dazzle ships at dawn
